

THE BLAIRMORE ENTERPRISE

VOL. XV, NO. 4.

BLAIRMORE, ALBERTA, THURSDAY, JANUARY 24, 1924.

\$2.00 YEARLY

KNIGHTS INSTALL OFFICERS

At a special meeting held in the Castle Hall on Friday night last, the officers of Greenhill Temple No. 10, Pythian Sisters, and of Livingstone Lodge No. 22, Knights of Pythias, were duly installed for the ensuing term.

The meeting of Greenhill Temple was called to order at 7 o'clock for the dispatch of business and closed in regular form at 8 o'clock. The meeting was then called to order for purpose of installation by public ceremony. Mrs. T. Smith acted as district deputy and was very ably assisted by Mrs. Howarth and others of the Temple. The new officers are:

Past Chief—Mrs. M. Wright.
M. E. C.—Isabella Wolstenholme.
E. Senior—Mary Elliott.
E. Junior—Agnes Lord.
M. of T.—Mary Senier.
M. of R. & C.—Annie Williams.
M. of P.—Elizabeth Lornie.
P.—Ruth Oakes.
G.—Lillian Hunt.

The chair was next occupied by Bro. Jack Griffiths, D.D.G.C., of Coleman, who installed the officers of Livingstone Lodge No. 22, assisted by Past-Chancellor W. J. Bartlett, as deputy grand prelate. The officers for the ensuing term are:

P. C.—W. J. Bartlett.
C. C.—F. Wright, P.C.
V. C.—Bl. Elliott.
Prelate—James F. Lote.
M. of W.—C. Byers.
M. of R. & S.—B. Senier.
M. of Finance—J. Anderson.
M. of Eschequer—W. Hunt.
Master at Arms—P. Patterson.
Inner Guard—J. Wolstenholme.
Outer Guard—Norman Bonneau.

Following the installation ceremony tables were spread and a dainty turkey supper served, followed by a programme of dancing, singing, etc.

A pleasing feature of the after-dinner programme was the presentation of a gift to the newly installed prelate, who had lately joined the army of benedicts.

Both the above lodges were installed during 1923 and have made most encouraging strides, already controlling a combined membership of over seventy.

BLAIRMORE AGAIN DEFEATS BELLEVUE ON BELLEVUE ICE

In a game sparkling with thrills and brilliant play, the Blaimore seniors won over Bellevue on Tuesday night with a score of six to five.

The game was refereed by Tommy Clark, of Coleman, and for the first period his decisions were anything but satisfactory to either side. For the balance of the game, however, he refereed a good game.

Bellevue opened the scoring early in the opening period, but Blaimore very soon equalized and recorded another. Play was fast and all though it appeared that the result might be in anybody's favor. Several times the score tied. Both Tiny Thompson and Mervin Rhynas played stellar games in goal. The game ended in Blaimore's favor by a six to five score. Connolly was the favorite with the Blaimore team, while Mackie starred repeatedly for Bellevue. The game was adjudged by spectators as one of the fastest and best they had ever witnessed in amateur senior hockey. Several penalties were awarded, most of them falling to the lot of Hansen, of Bellevue.

AUDITOR'S REPORT BEST IN CORPORATION HISTORY

The auditor's report of the affairs of the municipality of Blaimore, which appears elsewhere in this issue, is the best since the town became incorporated, and should be carefully perused by every ratepayer.

John Jack, of Cowley, has been appointed an official auditor for 1924.

tuted during 1923 and have made most encouraging strides, already controlling a combined membership of over seventy.

COLEMAN TO APPEAR HERE FRIDAY NIGHT

Coleman Crystals will appear on the Blaimore Arena tomorrow (Friday) night. While this is a league fixture, it will probably be played as an exhibition game, owing to the fact that Coleman has not yet been reinstated. Nevertheless a good game can be expected. Game starts at 8. Skating after the game.

We understand that the game—Coleman versus Blaimore—which was to have been played in the local arena on Thursday, January 17th, but postponed owing to minor differences, will be played at first opportunity. This was a fixture in the first section of the league schedule.

HOORAY FOR BELLEVUE!

Airplanes, seaplanes, dirigibles, submarines, fishing smacks, row boats, automobiles, street cars, sleighs and buggies will all be commissioned on Monday night next to convey local fans to Bellevue to see the fifth game in the second section of the Crow Hockey League.

Lethbridge comes up to Bellevue on Monday night to try to wrest one game from the winners of the first section, and all look forward to a humdinger.

The Bellevue Silver band will as usual be on deck and render entertaining and pleasing selections.

DISPLAYED THE RIGHT SPIRIT

A number of Bellevue citizens turned out on Tuesday afternoon and in the very teeth of a big snow and wind storm shovelled out the drifts that blocked the way of hockey fans from Blaimore, Coleman and Hillcrest. It paid them well, for had it not been for their exerted energies very few visitors could have reached Bellevue.

ST. LUKE'S CHURCH

Sunday, January 27th.

Morning Service and Holy Communion at 11 a.m. Preacher Rev. S. Middleton, B.S.A., rector of St. Paul's church, Macleod.

Sunday School at 2:30.

CANADA BENEFITS FROM TOURISTS

The Automobile Club of British Columbia has been notified from Ottawa that more than \$170,000,000 came to Canada through the tourist trade during last year, according to an estimate prepared by the Canadian National officials. It is estimated that over 1,000,000 automobiles entered the nine provinces of Canada on business or pleasure during the season.

According to government estimates, tourist traffic, as a revenue producer took fourth place in Canada's industries. Nine hundred and ninety-six thousand, three hundred and twenty-nine automobiles entered Canada during the 1923 season, either for pleasure or business and of this number nearly 50,000 came into western provinces and British Columbia.

The Pacific coast province headed the list with 36,225 cars registered for entry; Manitoba was second with 10,676; Saskatchewan had 497 and Alberta 462. The 1923 figures, when available, will, it is expected, show a large increase over these.

The veteran "Bill" O'Haire, has been unanimously elected mayor of the new oil town of Sunburst. Mr. O'Haire is practically the founder of the new oil burg, and most of the development is upon his own farm property. The town was incorporated two months ago and now has a population of about one thousand.

Mr. and Mrs. F. Anderson are rejoicing over the birth of a daughter, January 23rd.

An inter-club curling competition is in progress at the arena this week. Teams from Pincher Creek, Bellevue, Coleman and Blaimore are competing. Report of results will be given in our next issue.

A Coleman weather expert predicts that we are due for fifteen years of cold and damp weather. Many complaints are made about the weather, but as Mark Twain said, "Nothing is ever done about it."

WORLD HAPPENINGS BRIEFLY TOLD

Great Britain has recognized the Greek Government, the British charge at Athens was officially advised by the London Foreign Office.

Dr. Ernest Schweninger, 73, for years personal physician to Chancellor Harnack, died recently at Munich. He was credited with evolving a treatment which prevented Harnack from becoming fat.

Wesley MacKenzie, widely known as "Bill the Barber," who terrorized the Arran, Sask., district for several months, has been declared insane and will not face the several charges laid against him.

Robert Brunel, Rumanian delegate to the League of Nations, estimates, after an investigation, that there are in transit in Rumania, 4,000 Russian Jewish refugees, of whom approximately 1,500 plan to go to Canada.

Out of 22 railway crossing accidents reported to the Railway Commission during December, automobiles figure in 18 of them, resulting in seven deaths and injury to 22 persons. Three of the level crossings, at which rail-laps occurred, were protected with bells, and one, at which a pedestrian was the victim, was guarded by gates.

An endowment fund of \$3,000 to provide three prizes, and probably a fourth, of \$500 a year for the best essays on international peace to be administered by the League of Nations Society of Canada, has been provided by Mrs. W. Charles Doyle and family. The prizes will be competed for by pupils in the primary and secondary schools of Canada and undergraduates at the universities.

To Raise Scuttled Ships

German Warships Sunk at Scapa Flow Will Be Salvaged

A Queensboro, Kent, firm has entered into a contract with the Admiralty to raise 68 German warships sunk at Scapa Flow. Most of the warships, when raised, will be sold to the shipbreakers, while the others will be used by the admiralty for target practice.

The crews of the German warships scuttled the vessels when interned by Admiral Jellicoe on June 21, 1919.

Corn cannot exist when Holloway's Corn Remover is applied to them, because it goes to the root and kills the growth.

There must be some trend towards universal peace when 22 of the leading nations have reduced their war budgets in the last two years. As usual, Great Britain is in the lead.—Hamilton Spectator.

Troubles and Talk

As a general thing the man who doesn't have time to talk about his troubles hasn't any.—Dallas News.

Clear Your Complexion With Cuticura

Date with Cuticura Soap and hot water to free the pores of impurities and follow with a gentle application of Cuticura Ointment to soothe and heal. They are ideal for the toilet, as is also Cuticura Lotion for powdering and perfuming.

Send 3¢ to Dr. J. C. Williams, Sold throughout the Dominion, Canadian Agents: London, Ltd., 211, St. Paul St., Montreal. Cuticura Soap should be used with care.

Migration Cut Lynching

Fifty Per Cent. Decrease Shown in U.S. This Year.

Migration of negroes to the north is partly solving the lynching problem while Congress lets the Dyer anti-lynching problem bill sleep. Negroes maintain lynchings are chiefly responsible for the decline from the south.

The Washington Tribune, Negro, which is agitating anti-lynching legislation, printed the following summary of the lynching situation:

"There were twenty-five lynchings in the United States in 1923 as compared with sixty-one in 1922. The decrease, of more than 50 per cent. can be attributed to the unprecedented migration of more than 600,000 negroes from the south this year.

For most violence has been given in every list of 'causes' for the migration."

Swollen Joints, Quickly Limbered Up

Rub On Nerviline

You would be surprised at the wonderful action of "Nerviline" in just such cases. Being thin and not in oil preparation, it is able to penetrate quickly, and down it slinks into the joints, carrying its healing, soothing action wherever it goes. For stopping muscular or nerve pain, for easing a stiff joint, Nerviline is a complete success. Pain is so common a complaint all vanish before the magic power of this wonderful liniment. Nearly fifty years of accurate proof of the Nerviline, which is sold everywhere in large 35 cent bottles.

The late Mrs. Alexander P. Moore (Lillian Russell) was noted for her knowledge of human nature. "Mrs. Moore," a Pittsburgh girl said to her one day, "how many times should you make a man propose before you say 'yes'?"

"If you have to make me this proposal," said Mrs. Moore, "you'd better say 'yes' the first time."

WEAK ANAEMIC WOMEN

What They Need to Restore Good Health and Vitality

The woman who feels tired out, who aches all over when she rises in the morning, who feels depressed most of the time, needs the help that Dr. Williams' Pink Pills can give her. Her rich blood and stronger nerves. The number of disorders caused by poor blood is amazing, and most women are suffering from it. Their nerves are quickly affected; they worry over trifles and do not obtain restful sleep. There may be stomach troubles and headaches; shortness of breath and a fluttering of the heart. This is the condition that calls for Dr. Williams' Pink Pills, the blood-improving, nerve-strengthening tonic.

Mrs. W. Williams' Pink Pills, Lovett Street, London, Ont., has proved the value of these pills, and says: "I had a very serious attack of anemia. I was always tired and the least thing would make me sick at the stomach. I could not go to school. I suffered terrible pains in my legs from cramps. I had no color in my face and was about as thin as a stick. My doctor gave me several kinds of medicine, but could not understand why I did not get results from it. Then I went to a hospital and was there for three months, but came home no better than when I left. I was very weak and worried and feared consumption. While I was still in this condition, a friend advised me to try Dr. Williams' Pink Pills. I tried them and after a few days I felt they were helping me. I gladly continued their use, and am thankful to say that I am again a well woman, and I firmly believe that they do not obtain restful sleep."

The new sales tax will not increase the price of Dr. Williams' Pink Pills as the company pays the tax. You can still obtain the pills through any medicine dealer at 55 cents a box, by mail, post paid, at this price, from Dr. Williams' Medicine Co., Brockville, Ont.

Reason For Optimism

Attention Is Drawn to Canada's Enabling Financial Condition

A spirit of optimism should be manifested at the present time in view of the fact that the commerce of the Dominion is excellent, according to Hon. Thomas Law, minister of commerce.

"Why should we not be optimistic?" Mr. Law asked. "Our exports exceeded our imports by \$150,000,000, a situation very encouraging for a young country like ours. Our commerce in 1920 reached \$11,000,000,000 in value, but today it reaches \$200,000,000,000. Our national debt was considerably augmented during the war, but it must be remembered that 80 per cent. of it is owed to the people of the Dominion who receive the interest, thus keeping the money in the country. Our per capita debt is lower than that of any other country in the world. All these things are an indication that we should face the future with a great deal of confidence."

Where He Shone Teacher (exasperated). "Isn't there anything you can answer?"

Cet Tag On Goose Shot By Eskimo

Fate of Wild Geese Tagged by Jack Miner Are Daily Reported

There has arrived at Jack Miner's bird sanctuary, Kingsville, an aluminum tag bearing the initials "E. R. K." taken from a wild goose shot last summer by an Eskimo in Baffin Land.

The letter accompanying the tag, mailed by Rev. J. W. Walton, a missionary in the north for 32 years, at Great Whale Lake, was three months en route. The wild goose, Jack Miner reports, was tagged at Kingsville in April, 1915, by Edward K. Kerr, Wildlife secretary of the Essex County Wild Life Conservancy Association. Four wild geese were tagged at the same time. The first tag came back a few months later from Fort Albany, James Bay, where the bird had been brought down by an Indian.

The second tag was returned to Kingsville in the fall of 1920, the geese having been shot on the Belcher Islands, Hudson's Bay.

End Stomach Misery, Gas Or Indigestion

"Pape's Banquet" is the quickest, surest relief for indigestion, flatulence, heartburn, sourness, or stomach distress caused by acidity. A few tablets give almost immediate stomach relief. Correct your stomach and digestion now for a few cents. Druggists sell millions of packages of Pape's Banquet.

New Road Map

The Canadian Automobile Association has prepared a new map showing the main Canadian National highway from Halifax to Vancouver including a detour route through the United States from Saint Isle, Marie to Winnipeg, owing to the present gap there. The middle west section of the map and the descriptive matter was prepared by A. C. Emmett, secretary of the Manitoba Motor League.

Your Home Medicine Chest.—Among the standard household remedies that should always be on hand in your home medicine chest, none is more important than Dr. Thomas' Electric Oil. Its manifold usefulness in relieving pain and healing sickness is known by many thousands throughout the land. Always use Dr. Thomas' Electric Oil for relieving rheumatic and sciatic pains, treating sore throats and chest, colds, burns, scalds, cuts, bruises and sprains.

Champion Wheat Grower

A. J. Mason, of Lethbridge, Sask., 1922 winner of the Bullman Press farm crops trophy for the provincial championship in hard red spring wheat, repeated the feat this year with a sample of Marquis wheat, the University of Saskatchewan extension department has announced. T. Archer, of Moose Jaw, won the T. Eaton cup for the championship in oats. The 1923 holder was A. R. Moore, of Qu'Appelle.

Doctor: "I had a great many more patients this time last year than I have now. I wonder where they've all gone."

His Wife: "We can only hope for the best, John."

People Now Live Longer

60,000 People in Great Britain Are Over 85 Years of Age

People are living longer, according to Sir Kingsley Wood.

Speaking at a women's meeting at Egham; Sir Kingsley said that one of the bright spots in our national affairs was that we were never such a healthy nation in our history. Since the beginning of the century the infant mortality rate had gone down from 150 to 50 per 1,000.

There were 600,000 people over 70 years of age, and 60,000 over 85. These results were due to the advance of public sanitation and personal hygiene, and the better nutrition, including health more than steady employment and renewed prosperity.

Reminded Absent-minded Professor. — And who are you, my little man?

"Quite so; quite so. I'm playing golf, am I not?"—Judge.

England's great athletic stadium being erected will cost 125,000.

Mining's Liniment For Aches and Pains

SUNDAY SCHOOL LESSON

JANUARY 27

Israel Saved at the Red Sea

Golden Text.—Jehovah is my strength and song, And he is become my salvation. Exodus 15:2.

Lesson.—Exodus 15:1 to 15:27. Devotional Reading.—Psalm 106:1-5.

The Lesson Text Explained and Hummed

"The Israelites Cross the Red Sea, verses 21, 22." As God used natural means (the various plagues) to effect the escape of the Israelites from the hand of Pharaoh, so at the Red Sea He made use of a strong east wind blowing all night to lay bare a broad strip of the sea bottom. "Until lately I had no conception of how easily this could be accomplished; but our engineers on Lake Erie found that a southwest storm will blow the water down at Toledo eight feet and make it eight feet higher at Buffalo; while a strong wind in the other direction will produce an opposite effect, a total variation of about sixteen feet being produced under varying conditions (G. F. W. W. Dunnington, Esq.). Pharaoh and his army were in a predicament. Tradition which says that Moses waited for the ebb tide in order to lead his people to the other side of the sea, as to have taken these precautions and elude the ocean, make them march through it. Legendary of which prevented the Egyptian army from following. The Israelites would have preferred the former way. The Bible miracle usually speaks of the sea being divided, and the Israelites were enabled to cross it safely. "Suppose we set aside the miraculous incident for a moment and ask what does the writer mean to convey by his words? He means to convey this lesson, namely: that if we are found where we were supposed to be impossible. The doctrine is verifying and illustrating itself every day in the history of every man. When our poor life has been driven up to a point from which there seemed to be no escape, God has shown an opening in the rock, or a way through the deep; and we who thought we were lost, have been enabled to enter upon larger liberties. Who will swear to that? I will. You hear me and what does the writer mean to convey by his words? He means to convey this lesson, namely: that if we are found where we were supposed to be impossible. The doctrine is verifying and illustrating itself every day in the history of every man. ADVERTISING FACTS

In special display form, the Nanton News points out to merchants of Nanton that it is not advertising that is expensive, but the lack of advertising. In support of its position, the News says that 25 per cent of unadvertised goods becomes dead stock on the dealers' shelves, while only 5 per cent of nationally advertised goods fail to move. But, it contends, that 5 per cent would also disappear if local dealers would link up local newspaper advertising with the broader national publicity. That is fundamentally sound advice. Publicity and newspaper advertising help in quick turnover. Customers will welcome information regarding prices, quality of goods, special lines, etc. It is good business to tell the people what you have to sell, rather than to wait for them to come to enquire if you have anything for sale.

UNEMPLOYMENT IN

ALBERTA SJALL

Total unemployed registered in the Provincial Labor Bureau at the end of the year numbered 495, as compared with 997 at the end of the previous year. Through the offices at six points in the province, total placements during the year were 55,273, an increase over the previous year of 15,187. The cost of operation of the service was reduced last year by \$13,667, the average cost per placement being reduced from \$1.63 to 89 cents. The cost of operation of these bureaus is borne equally by the province and Dominion.

FINAL REFERENDUM FIGURES

Official figures on the final count in the recent referendum on the liquor question have now been announced by J. D. Hunt, chief election officer. The result is given as follows:

Question A	61,780
Question B	3,939
Question C	3,092
Question D	93,990

The majority of "D" over "A" is thus 32,210. The cost of holding the plebiscite was less than \$120,000, whereas the legislature had allowed an estimate of \$200,000, basing this estimate on the cost of previous plebiscites.

THE NEWSPAPERMAN'S PRAYER

About a dozen years ago Walter Rauschenbusch composed "A Prayer For Newspaper Men and Writers," and it was printed in the American Magazine in July, 1910. Doubtless many of our readers would like to have it for their scrap book—if for no other purpose—so here it is reprinted:

"O Thou great source of truth and knowledge, we remember before Thee the writer of books, the newspaper man, and all whose calling it was to gather and winnow facts and to inform the people. Grant them a determined love for honest work and a staunch hatred for the making of lies, lest they pervert the judgments of our nation and teach us to call light darkness and darkness light. Suffer them not to drag the minds of our people with falsehood and prejudice. Since the sanity and wisdom of a nation are in their charge, may they count it shame to set the baser passions of men on fire for the sake of gain.

"Grant them boldness to turn the unwelcome light on those who love the darkness because their deeds are evil. Put into their hands the shining sword of truth, and make them worthy sons of the champions of the

people in the past, who held truth to be a holy thing for which men should die.

Make them realize that they have a public function in the community, and that their country may be saved by their courage and unshaken by their cowardice and silence.

"Grant them the heart of manhood to cast their mighty influence with the forces which make the people strong and free, and if they suffer less may they rejoice in that as proof of their own souls—that they, too, have been friends of the common man and servants of a higher law."—The American Press.

BISHOP FALLON RAIS PREMIER FOR BANK FIZZLE

Ottawa, Jan. 16.—Right Rev. Bishop Fallon, of the Roman Catholic diocese of London, has addressed the following letter to Premier King and has sent a copy to the Ottawa Journal with a request that it be published: "Open letter: To the Right Hon. W. L. Mackenzie King, Prime Minister of Canada: "Right Hon. and Dear Sir: "Shortly before your departure to attend the imperial conference the Home Bank closed its doors. A few days after your return the liquidator issued his report of the bankrupt institution. That document, with its omissions and its suppressions, constitutes the most disgraceful story ever made public in the annals of Canadian finance.

"Despite government supervision, finance ministers, inspectors, auditors and the Bankers association, the Home Bank was able to go on unchecked for more than a decade of years in its career of incompetency, deception or dishonesty, until the whole structure fell to pieces and brought misery and suffering to hundreds of thousands of Canada's citizens.

"The collapse of the Home bank, however, is but an incident in financial condition that calls for immediate and effective action. By glowing annual reports, by eloquent discourses from general managers, by empty resolutions of uninformed shareholders, and by culpable negligence in the finance department, the people of this country have been lulled into a sense of security concerning their surplus entrusted to the banks of Canada.

"There is no good basis for this sense of security. It is futile to allege that the banks that remain are so strong as to allay all mistrust and suspicion. Consider the history of the last 10 years. One of our foremost banks was the universal subject of nervous comment; several millions of dollars went from the public treasury to its support. This action was either a measure of commendable prudence, or it was plain robbery. Then followed the unspeakable exposure of the Merchants bank, an institution that was considered as solid as the rock of Gibraltar.

"In recent months the Union bank and the Standard bank have written off millions of dollars of losses caused by speculation of their officers, and which might just as well have completely wrecked them. Then the Home bank failed. Following quickly on the heels of this event came the disappearance of the Bank of Hamilton, which had reached the limit of its financial endurance. And only a few days ago La Banque Nationale was saved by the wise decision of the Province of Quebec to assist it by a subvention of \$15,000,000 of public money.

"There is, moreover, nothing in the balance sheets of our existing banks to create reasoned confidence. Our ten largest banks have an average surplus of assets over liabilities of less than \$12 in every hundred. When one considers that in this small surplus are contained frozen assets, bad debts, loans from which no profit will ever be made, and the inevitable shrinkage in the value of real estate and equipment, it is not too much to say that these institutions would under pressure pass from a condition popular to one of actual bankruptcy.

"In that unhealthy condition 90 per cent of our population is vitally concerned, and it is a condition which the

civil government is bound to effectively heed; the immediate end for which civil government has been instituted in the protection of person and property.

"But how can this end be reached in the matter under consideration?"

"By the simple method of making the banks collectively responsible for the money they accept as deposits. The banks borrow our money without other security than the charters the people gave them. They pay no interest or a very low rate of interest. When they loan us our own money they charge us the highest rate of interest obtainable and every shred of security that can be squeezed from us is rigorously exacted. We are actually made financial slaves by the very power of our own savings, and the bankers gamble with our earnings, and tell us to go whistle when the crash comes.

"No further faith can be placed in those who have hitherto been our financial guides. They have been weighed and found wanting. And they know it themselves. We are now being told that the banks have no objection to 'government inspection' but the government must bear the consequent 'responsibility'. The people of Canada will not tolerate the placing of any such 'responsibility' on their government, that is, on themselves. They shall demand an effective guarantee for their hard earned savings and they will look to the forthcoming session of the federal parliament to exact that effective guarantee from those to whom these savings are confided.

"It may be asked why I should have written this letter. Let me say, for your very reasonable curiosity, I have noticed that every corporate interest has a mouthpiece. The plain people, to whom I belong, alone seem to be articulate and unorganized.

"Failing a more fitting representative, I have ventured to make myself their spokesman, and I have a strong conviction that I am voicing their sentiments.

"I beg leave to remain, yours faithfully.

(Signed) "M. F. FALLON,
"Bishop of London"
"London, Ontario, Jan. 22, 1924."

The case of Altomare versus Foot, arising out of an automobile collision near Fernie some time ago, was dismissed by Justice Thompson, who declared that both were to blame.

Industrious Nova Scotia

Province by the Sea is Developing Many of Her Natural Resources

When John Cabot in 1497, landed from his little ship, the Matthew, and hoisted the Royal Standard upon what is now Cape Breton Island, a portion of the province of Nova Scotia, little did he think that in the course of a comparatively few years, as the ages of countries go, the land of welcome would be held out from that province to the many thousands from across the sea who would find in the new land, happy homes and prosperity. The latter term may be used in its full meaning; in Nova Scotia there is no poverty. When the Canadian Weekly Newspaper Association visited that province last summer one of the writers often remarked that it was the apparent contentment of the people. This contentment must not, however, be taken as any indication of a lack of progressiveness; in fact, some of the editors were distinctly fascinated by the immensity of the industries. Attention was first directed to the natural resources of Nova Scotia, in the log of the good ship Matthew when the discoverer recorded that the vessel was "sometimes stayed" in her course by the schools of cod. Fish- ing is today one of the chief primary industries of the province, the many bays and inlets providing safe harbors for the thousands of fishing vessels that go to sea. Hundreds of canneries give employment to many thousands of hands in the preparation of the fish, the value of which in 1922 was over ten million dollars.

The second primary industry is coal mining. With the only coal mines on the Atlantic coast, the value of these to navigation and industry can hardly be fully appreciated. During the twelve months ending September last 5,667,434 tons of bituminous coal were mined in Nova Scotia. Coal is not, however, the only mineral resource, gypsum, salt and others being produced in considerable quantity, while a very large range of useful minerals are available but as yet largely undeveloped.

Agriculture is as old as Nova Scotia, the farmers being engaged almost entirely in mixed farming. Apple growing is extensively carried on, as the traveller may witness in a trip through the famous Annapolis Valley. Nova Scotia has great historic interest, also, due to the early struggles for possession of the land. On these, however, we have not time to dwell, suffice it to say that the Natural Resources Intelligence Service of the Department of the Interior at Ottawa has just issued a well illustrated handbook of Nova Scotia, which will be sent free to all interested in Canada's province down by the sea.

Successful Indian Farmers

Indians of Three Prairie Provinces Harvest Crop of 1,276,656 Bushels

The Indians of the three prairie provinces in the 1922 season harvested the greatest crop in their history. According to the annual report from the head office in Regina, the total grain crop was 1,276,656 bushels, an increase of more than half a million bushels over the 1922 crop.

In the three provinces the Indians harvested 638,561 bushels of wheat, 574,282 bushels of oats and 62,804 bushels of barley. The report shows they raised 53,364 bushels of potatoes and 10,000 bushels of other vegetables. They summer-plowed 20,000 acres of land; broke 6,808 acres; put up 67,000 tons of hay and 9,516 of green feed.

Besides marketing a very large number of steers, over and above their own beef requirements, the Indians now own 20,000 head of cattle, a natural increase of 2,000 head over the figure for 1922, and they own 25,000 horses.

The report shows the Alberta reserves to have yielded an exceedingly heavy crop of excellent quality. On the other hand, Saskatchewan, with a larger acreage did not yield as well owing to adverse conditions during the crop season in the southern part of the province.

Japan Welcomes Autos

Japan's great earthquake of last fall has proven a boon to the automobile industry. Before the catastrophe, there were few motor vehicles in the empire. Duties and taxes made their use almost prohibitive. Urgent demands for transportation, when the relief workers began their labors of mercy, taught the government its folly. Now the automobile is playing a big part in Japan's reconstruction. Trucks are admitted free, and pleasure cars for half the old duties.

Fate Mother—What do you mean by saying my boy has some of the characteristics of the German? Teacher—Don't get excited, madam. I merely mean to indicate that he has too many bad marks.

W. N. U. 1567.

Jumping Beans

Interesting Phenomena of Nature Found in Mexico

Jumping beans are amongst Nature's most interesting phenomena. Really, it is not the bean that jumps, but a little insect inside it!

The jumping bean comes from a tree in Mexico, which bears a strange looking three-cornered fruit, containing three pods. In two of these pods are the seeds of the tree, but in the third is a little worm, the larva of a certain kind of moth.

This moth comes to the tree when it is in flower and lays an egg in a part of each blossom so that while two parts grow into pods for the seed of the tree, the other becomes a shell for the egg when it is hatched.

The fruit ripens in August and drops to the ground. There the husk breaks open and divides into three parts. In one of these is the worm! In some extraordinary way the little insect knows that it is not in a safe place. It might get eaten or trampled upon, so it coils itself up and then suddenly lets itself go with a spring, taking its house with it. It goes on jumping until it has found a safe resting-place; then it goes to sleep for the winter.

You negatively can't satisfy some people. They go always looking for trouble and are never happy when they find it.

One of the largest aluminum bearing deposits in the world has been discovered near Topolca, Hungary.

War On Rust

Active Measures Being Taken To Overcome Annual Loss

Active steps are being taken by the government to combat the destruction which annually results from wheat rust in the west. Millions of dollars' loss are annually attributed to this cause. It is not expected to devise a method of overcoming it entirely, on account of the variety of types, but rather to find the one best able to resist it. The experiments are being carried on at the pathological laboratory at the central experimental farm at Ottawa in connection with similar investigations at Saskatoon.

Can Hear More Distinctly

Radio Receiver Held on Ear Without Head Brides

Fitting over the ear, a radio receiver is being made in Europe that does away with head bridges. It allows greater freedom of movement, yet is not uncomfortable, since its light weight is evenly distributed. As the ear is entirely free in the device, with a cushion of air between it and the diaphragm, external noises are shut out, music and voices sound more natural, and the wearer can hear more distinctly. Sets of two are also being turned out.

To Be Exact

The Patient—I've broken my glasses; do I have to be examined all over again? The Oculist—Oh, no; only your eyes.—London Opinion.

A Neat Street Hat

Here is shown a black felt hat trimmed with fittings of white grosgrain ribbon for street wear.

Short Weight Bread

Will introduce Bill to Regulate Weight Of Bread in U.S.

A bill which would regulate the weight of bread sold. In inter-state commerce has been introduced into congress by Rep. Brand, of Ohio. The purpose of the measure is to prevent short weight bread from being sold and to serve as a model to states for the passage of similar laws.

Brand, in introducing the bill, said consumers were cheated out of \$50,000,000 yearly through buying short weight bread.

The Dirigible

Record of Disaster Which Has Followed the Zeppelin Type of Aircraft

The story of the dirigible is a story of disaster. Out of seventy-two Zeppelins employed in the war, fifty-two were destroyed; twenty-six by the allied forces, fourteen by storms and twelve by explosions. In comparison with the swift and dependable airplanes, the service of the Zeppelins were negligible. Since the war the ZR-2, a two-million dollar airship, was destroyed by an explosion near Hull, England, in 1921, with the loss of more than sixty British and American lives. A year later thirty-four men went to their death when the United States airship Roma, bought from the Italian Government, was lost near Hampton, Va.—Toronto Globe.

Both Closed

"So your neighbor Meek and his wife had a row over what kind of car they should get, he wanting an open car and she a sedan."

"Oh, yes, but the incident is closed."

"So in the car, I saw her out in it this morning."—Detroit Free Press.

During the last two years the Florida fishing industry has yielded a revenue of \$8,563,000.

Only about 54,000 of the more than 151,000 acres of known oil lands in Mexico are being developed.

Give your local merchants a chance. Buy at home.

The Nobility Of The Soil

Farmers of France Have a Remarkable Record in Retaining Property

The love of the French peasant for the soil on which he was born is shown once more in the special award of the Agricultural Merit reserved for farmers and small holders, who through family hardihood have held on to at least three centuries on the same property. The list published recently in the Official Journal comprises no fewer than 750 names. The most remarkable is that of the Lafargue family of Couste, commune of Mullery, Tarn and Garonne, who have occupied the same place for 1,151 years. The record of another is 1,000 years, and of a third 900 years, while six others have records of over 700 years each. "Could many be found among the oldest families of the French nobility," asks L'Illustration of Paris, "capable of proving their origin from time to time so remote?"

The report of the minister of agriculture shows that the Lafargue family have an incontestable right to their claim, for it is based on the will of one J. Lafargue which was registered before a notary named P. Becus on August 20, 772, under Charles (Charlemagne), son of Pepin and which is still preserved in the archives of that department.

"How," asks L'Illustration, "have the Lafargue family maintained intact these ancestral patrimony in the nineteenth century, with all the consequences of modern laws regarding the division of estates?" The answer given by the report is that the whole secret rests in the wisdom of the heads of the house conscious of their hereditary responsibility. Three times since 1793 has peril struck at their doors but it was averted by their persevering determination to adhere to no sacrifice in order to preserve the ancestral ideal.

Several of these old families reside in the lower Pyrenees at distances from the whir of the world, but it is surprising to find that in department of the Solze, at the doors of Paris, fourteen families have worked the same soil for more than 300 years. "These fourteen families have followed their occupation as farmers since the time of Henry IV and remained inalienable to the attraction of the great city."—Toronto Globe.

Responsibility Of Life

Necessity of Effort, Which Will Accomplish Some Task

I must—these two words spell the responsibility of life. They also imply a power which that is continually propelling a man to action. The man who says "I must" is stirred with a feeling of necessity for that effort which will accomplish some task. When this feeling of oughtness materializes into "I will," then the man puts forth the endeavor. So it is the man who first says "I must," then declares, "I will," who undertakes and achieves something in life.

A man may live and die saying, "I must," and never begin and finish his task. Life may prove a failure, even though his soul has been weighted down with the feeling of responsibility. "I must give time to the development of my mind," he says. But the years go by and no application to study is made. The sense of responsibility was strong, but effort was lacking. "I must improve my business," he declares. But the years pass and the man plods along in the same old rut. "I must help those who need my ministry," he vows. But the sorrowing continue to shed their tears, the poor still cry for bread, and the lonely wend their way longing for cheer, and comfort. The great big word "neglect" often injects itself between "I must" and "I will." As a consequence, life's work is left undone.

England's Child Authors

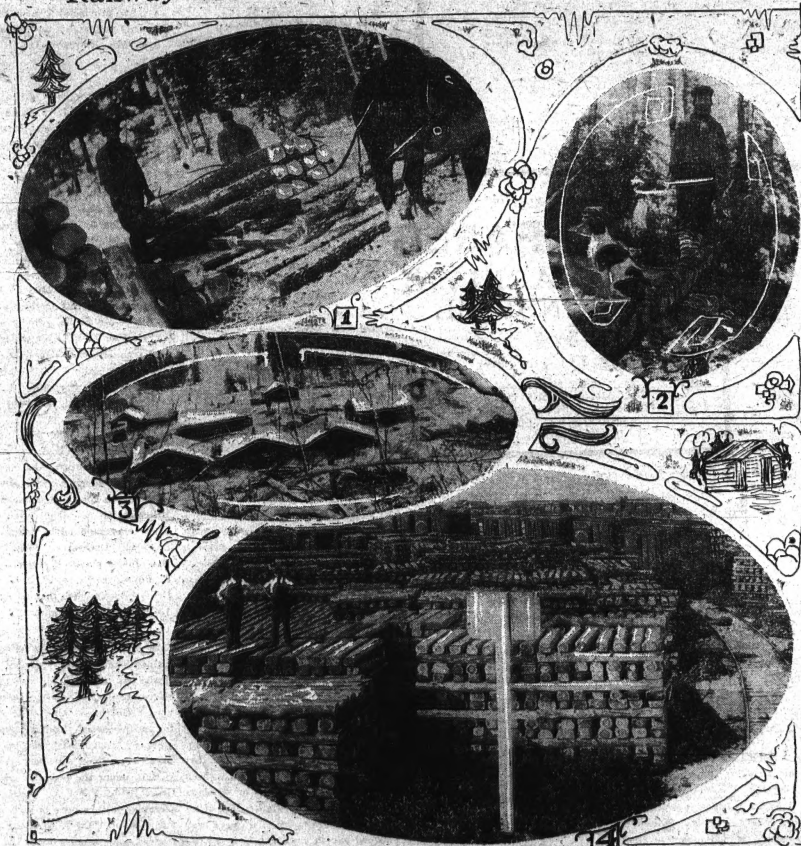

A 16-year-old girl looms today as one of England's most promising authors. Mollie Pantor-Downes, who has been writing since she was 7, has had the satisfaction of seeing several volumes of her poems well received. And her first novel, "Shoreless Sea," is just off the presses. Its plot is the eternal triangle—this time with two men and a woman, instead of a man and two women. Her heroine is reminiscent of Cinderella—only in a modern setting.

Many Radio Users

There are over a hundred thousand radio users in Canada, according to a survey made by the Department of Maring. At the beginning of last year broadcasters numbered 63. Early in 1923 the number fell to 26, but at present is 38. This figure that over \$3,000,000 are invested in receiving sets, the manufacture of which has developed into a profitable industry.

Opportunity knocks at a man's door not once, but continuously. Whenever he chooses he may admit it.

Railway Assists in Canadian Forest Preservation

A railway tie isn't much to look at, especially as you sit at the rear end of the observation car and watch the railway track disappearing, mile after mile, into the hazy sun-glare of the prairie or lose itself around a bend where the line winds itself through a wilderness of wood, rock and water. In fact, the railway ties get little attention from the traveller, even if the traveller should be a bit romantic or poetical. The steel rails—two silver bands across the nation, signifying commerce and industry, human beings on the move, unions, partings—these have appealed to the imagination of the poet and the novelist and the sketch artist, but the good, honest Canadian railway tie, without which the railway couldn't operate, is left out in the cold. It deserves a little more attention, for as a matter of fact, it is, one might say, the key log to a vast Canadian industry.

As, for instance, the Canadian Pacific

Railway alone buys over six million ties every year, for the maintenance of its lines. This, in board measurement, is equal to two hundred and sixteen million feet. On the tracks between Port Arthur and Vancouver, there are 24,160,000 ties. These figures in board measurement give a total of one billion, two hundred and thirty million feet of lumber, the weight of which is one million, nine hundred thousand tons.

Getting out railway ties is a real Canadian industry. These ties come from the bush in Northern Ontario, from Manitoba, Alberta and British Columbia. Getting them out gives employment to an army of men each lumbering season.

Work for more than 3,000 men in the lumber camps in Ontario and Manitoba is available every year as soon as the snow flies, and when the lumbering season is in full swing there is always work for 8,000 to 10,000 men. In addition to this sawmills are kept busy squaring them

up for service; the hardware man benefits by the sale of saws, axes and other woodman's supplies; contractors are able to give employment to men with teams and sledges, and the fender required for the horses provides a considerable market for the Canadian farmer. In fact, the production of millions of ties in Canada each year is an industry of no small importance.

Mr. Tamarac, Jackpine, with a small percentage of Spruce, are the woods used for track ties. The life of Spruce for this purpose is so short that it is not economical to use unless treated with creosote. "The Canadian Pacific Railway commenced treating ties with creosote at North Transcona in 1911, the object being not so much for economy as to aid in the preservation of the forests." During the next twenty years the logging industry combined with forest fires have depleted the standing timber to a tremendous extent, far in excess of the growth of young timber.

Five hundred thousand ties are treated yearly with creosote at North Transcona and other points. The cost of treating with creosote is higher than the initial cost of the ties, which has doubled in price since pre-war days, and while the company has no reliable data to work on it hopes that the average life of treated ties will be twenty years or double the life of their untreated. On some of the lines to the steel, street and creosote ties have been tried, but have not proved a success, they are altogether too rigid, lacking the resiliency of wood.

The preservation of the forest is of paramount importance to the railways of Canada in looking to their future supply of ties for the maintenance of tracks and for the building new lines. When it is taken into consideration that over six million new ties were required this year by the Canadian Pacific Railway alone, it gives some idea of the tremendous demands on the forests of this Dominion.

UNION BANK OF CANADA

59th Annual Statement, 30th November, 1923

PROFIT AND LOSS ACCOUNT	
Balance to credit of account, 30th November, 1922	\$482,175.55
Transferred to Contingent Reserve Account, 31st June, 1923	\$121,819.49
Net Profit for the Year, after deducting expenses of management, interest due depositors, guaranteeing for interest and exchange, and making full provision for all bad and doubtful debts, have accumulated	1,023,432.12
Which has been applied as follows:	\$1,144,995.00
Dividends 144, 145, 146, 147, 148, 149, 150, 151, 152, 153, 154, 155, 156, 157, 158, 159, 160, 161, 162, 163, 164, 165, 166, 167, 168, 169, 170, 171, 172, 173, 174, 175, 176, 177, 178, 179, 180, 181, 182, 183, 184, 185, 186, 187, 188, 189, 190, 191, 192, 193, 194, 195, 196, 197, 198, 199, 200, 201, 202, 203, 204, 205, 206, 207, 208, 209, 210, 211, 212, 213, 214, 215, 216, 217, 218, 219, 220, 221, 222, 223, 224, 225, 226, 227, 228, 229, 230, 231, 232, 233, 234, 235, 236, 237, 238, 239, 240, 241, 242, 243, 244, 245, 246, 247, 248, 249, 250, 251, 252, 253, 254, 255, 256, 257, 258, 259, 260, 261, 262, 263, 264, 265, 266, 267, 268, 269, 270, 271, 272, 273, 274, 275, 276, 277, 278, 279, 280, 281, 282, 283, 284, 285, 286, 287, 288, 289, 290, 291, 292, 293, 294, 295, 296, 297, 298, 299, 300, 301, 302, 303, 304, 305, 306, 307, 308, 309, 310, 311, 312, 313, 314, 315, 316, 317, 318, 319, 320, 321, 322, 323, 324, 325, 326, 327, 328, 329, 330, 331, 332, 333, 334, 335, 336, 337, 338, 339, 340, 341, 342, 343, 344, 345, 346, 347, 348, 349, 350, 351, 352, 353, 354, 355, 356, 357, 358, 359, 360, 361, 362, 363, 364, 365, 366, 367, 368, 369, 370, 371, 372, 373, 374, 375, 376, 377, 378, 379, 380, 381, 382, 383, 384, 385, 386, 387, 388, 389, 390, 391, 392, 393, 394, 395, 396, 397, 398, 399, 400, 401, 402, 403, 404, 405, 406, 407, 408, 409, 410, 411, 412, 413, 414, 415, 416, 417, 418, 419, 420, 421, 422, 423, 424, 425, 426, 427, 428, 429, 430, 431, 432, 433, 434, 435, 436, 437, 438, 439, 440, 441, 442, 443, 444, 445, 446, 447, 448, 449, 450, 451, 452, 453, 454, 455, 456, 457, 458, 459, 460, 461, 462, 463, 464, 465, 466, 467, 468, 469, 470, 471, 472, 473, 474, 475, 476, 477, 478, 479, 480, 481, 482, 483, 484, 485, 486, 487, 488, 489, 490, 491, 492, 493, 494, 495, 496, 497, 498, 499, 500, 501, 502, 503, 504, 505, 506, 507, 508, 509, 510, 511, 512, 513, 514, 515, 516, 517, 518, 519, 520, 521, 522, 523, 524, 525, 526, 527, 528, 529, 530, 531, 532, 533, 534, 535, 536, 537, 538, 539, 540, 541, 542, 543, 544, 545, 546, 547, 548, 549, 550, 551, 552, 553, 554, 555, 556, 557, 558, 559, 560, 561, 562, 563, 564, 565, 566, 567, 568, 569, 570, 571, 572, 573, 574, 575, 576, 577, 578, 579, 580, 581, 582, 583, 584, 585, 586, 587, 588, 589, 590, 591, 592, 593, 594, 595, 596, 597, 598, 599, 600, 601, 602, 603, 604, 605, 606, 607, 608, 609, 610, 611, 612, 613, 614, 615, 616, 617, 618, 619, 620, 621, 622, 623, 624, 625, 626, 627, 628, 629, 630, 631, 632, 633, 634, 635, 636, 637, 638, 639, 640, 641, 642, 643, 644, 645, 646, 647, 648, 649, 650, 651, 652, 653, 654, 655, 656, 657, 658, 659, 660, 661, 662, 663, 664, 665, 666, 667, 668, 669, 670, 671, 672, 673, 674, 675, 676, 677, 678, 679, 680, 681, 682, 683, 684, 685, 686, 687, 688, 689, 690, 691, 692, 693, 694, 695, 696, 697, 698, 699, 700, 701, 702, 703, 704, 705, 706, 707, 708, 709, 710, 711, 712, 713, 714, 715, 716, 717, 718, 719, 720, 721, 722, 723, 724, 725, 726, 727, 728, 729, 730, 731, 732, 733, 734, 735, 736, 737, 738, 739, 740, 741, 742, 743, 744, 745, 746, 747, 748, 749, 750, 751, 752, 753, 754, 755, 756, 757, 758, 759, 760, 761, 762, 763, 764, 765, 766, 767, 768, 769, 770, 771, 772, 773, 774, 775, 776, 777, 778, 779, 780, 781, 782, 783, 784, 785, 786, 787, 788, 789, 790, 791, 792, 793, 794, 795, 796, 797, 798, 799, 800, 801, 802, 803, 804, 805, 806, 807, 808, 809, 810, 811, 812, 813, 814, 815, 816, 817, 818, 819, 820, 821, 822, 823, 824, 825, 826, 827, 828, 829, 830, 831, 832, 833, 834, 835, 836, 837, 838, 839, 840, 841, 842, 843, 844, 845, 846, 847, 848, 849, 850, 851, 852, 853, 854, 855, 856, 857, 858, 859, 860, 861, 862, 863, 864, 865, 866, 867, 868, 869, 870, 871, 872, 873, 874, 875, 876, 877, 878, 879, 880, 881, 882, 883, 884, 885, 886, 887, 888, 889, 890, 891, 892, 893, 894, 895, 896, 897, 898, 899, 900, 901, 902, 903, 904, 905, 906, 907, 908, 909, 910, 911, 912, 913, 914, 915, 916, 917, 918, 919, 920, 921, 922, 923, 924, 925, 926, 927, 928, 929, 930, 931, 932, 933, 934, 935, 936, 937, 938, 939, 940, 941, 942, 943, 944, 945, 946, 947, 948, 949, 950, 951, 952, 953, 954, 955, 956, 957, 958, 959, 960, 961, 962, 963, 964, 965, 966, 967, 968, 969, 970, 971, 972, 973, 974, 975, 976, 977, 978, 979, 980, 981, 982, 983, 984, 985, 986, 987, 988, 989, 990, 991, 992, 993, 994, 995, 996, 997, 998, 999, 1000	\$1,144,995.00

W. R. ALLAN, President. J. W. HAMILTON, General Manager.

We have audited the above Balance Sheet and compared it with the books and vouchers at Head Office and with the certified returns from the Branches; and we have checked the cash and verified the securities representing the investment of the Bank, at its Chief Office and principal Branches, at a date after that of the verification at the Chief Office on the 30th of November, 1923, and found that they were in agreement with the figures in the Balance Sheet.

We report that we have obtained all the information and explanations we have required, that in our opinion the transactions of the Bank, which have come under our notice, have been within the powers of the Bank, and that in our opinion the above statement discloses the true condition of the Bank and is as shown by the books of the Bank.

T. H. HARRY WORTH, F. R. C. A. Auditor of the firm of GEORGE A. TOUTCH & CO.

Whitney, Dec. 19, 1923.

THE RULE OF THREE

Three things to wish for—health, friends and a cheerful spirit. Three things to delight in—frankness, freedom and beauty. Three things to admire—power, gracefulness and dignity. Three things to avoid—idleness, loquacity and flippant jesting. Three things to govern—temper, tongue and conduct. Three things to hate—cruelty, arrogance and affectation. Three things to love—purity, truthfulness and honor. Three things to be—brave, gentle and loving—Ex-

GIRLS' WORK BOARD OF CALGARY Promotes Leaders' Training Classes.

The Canadian Girls in Training program has experienced such rapid growth during the past four years that a very urgent demand for trained leadership has arisen. In many centres the teen age girls are keen to organize to carry out the C.G.I.T. program, but can find no one who is willing to take on the responsibility of leadership.

Sunday school teachers, who have not experimented with the program, frequently feel it to be too great an undertaking without training. A program which recognizes the development of girls, and their changing needs and interests, and aims at bringing the home, school, church and community into closer co-operation. It would be a good idea to carry out this plan in the smaller towns as

well. The work of training leaders for Sunday School and mid-week classes is one of many important works promoted by the Provincial Girls' Work Board in the interest of the girls of the province. Trained leadership of our girls is of vital importance to the future of Alberta, and the organization making provision for it should receive our active co-operation and support.

The second class will meet in the Central Methodist Church, under the leadership of Rev. Charles Sykes. This class will be open to experienced leaders. The course will be one of Bible Study. It will include a study of what the Bible is, and how we got it, and why and how to study it, and the historical, legal, wisdom, prophetic and New Testament literature of the Bible.

"You are no gentleman," she said, "if you think I said such a thing as she said I said I had said." "Dear girl," he answered, "you must not think I think you think you must be the kind of girl I think you must be if you said such a thing as you said I said you had said." It seems he knew she knew he knew she said just what she said he heard her friend had heard him say he had heard her say, but with intuitive feminine tact she accepted the apology. There is still an epidemic of caucuses raging at Edmonton.

Lethbridge played an exhibition game at Coleman on Monday night. The score was 4 to 1 in Coleman's favor. Lethbridge did not appear in full form, having left some of their best players behind, owing to the uncertainty of the game being a league game.

A very creditable report of the Hillcrest Relief Commission is contained in the January 15th issue of The Alberta Gazette. This commission controls a fund founded shortly after the disastrous explosion at Hillcrest in 1914, and last year paid out to widows no less than \$1984.00 in monthly allowances. The reserve fund now amounts to about seven thousand dollars.

Local owners of radio sets are finding that among their "sincere" Sunday evening friends are many who wish to avoid the collection plate and at the same time listen attentively to a church service.

Mr. J. A. Gemmill, formerly of the Moose Jaw Sales Service, but now travelling for a Saskatoon wholesale firm, was doing this district during the week, and went east to Lethbridge and Medicine Hat on Tuesday. John Voight, senior member of the firm of Voight Brothers, North Sydney, N. S., died on January 9th at the eighty of age.

HOME TOWN INTERDEPENDENCE

Every man should recognize himself as a factor in his home town and become a soldier of the common good.

Why not? We are mutually dependent, every one of us, from the sunrise to the sunset of life, for no man lives to or for himself. The utterly selfish man is a misfit in the scheme of human existence, is a libel upon a beneficent providence.

As we recognize these facts the town grows and prospers. A town that believes in itself and appreciates this fact of dependence upon each other will go forward with rapid strides, because its people work together for the common good.

We have in mind two towns. In one the population increased nearly 100 per cent during the past ten years, while another town similarly situated only twenty miles away, has increased about one per cent in thirty years. Why the difference? The other town is cut up into cliques and factions. Some sets won't trade or neighbor with other sets. The result is that thousands of dollars every month are sent out of that town for mail order purchases, whereas in the town first mentioned, where the people pull together, it has been estimated that the home merchants get about 98 per cent of the trade. Exchange.

EFFECTIVE ADVERTISING

A German farmer who had lost his horse advertised for it in this way: "One nite the udder day apout a week ago last month I heard me a noise by der front middle of de pie yard which did not use to ve. So I jumps the bed pud und runs mit'er door und ven I sees I finds my pig gray iron mare he was find loose und runnin' mit der stable off. Whoever prings him back shall pay five dollars reward."—Young Pilgrim.

A splendid exhibition of real hockey was staged at the local arena on Monday evening by the Bellevue and Blainmore Juniors. Blainmore all through seemed to have a little edge on the play and with Young Kemp in goal were hard to get through. Blainmore referred the game in good style and while his decisions were quite satisfactory to the players some complaints were heralded through a trumpet from less interested spectators. The game ended in Blainmore's favor, four to nothing. Quite a number of penalties were awarded and for a time the fence decorations were a treat to look at.

Judging by the fact that the attorney-general and his department received quite silent in respect to certain charges made by Mr. J. W. McDonald, K.C., there must be more truth than poetry to the charges.

Mrs. Louis Anderson returned to her home in Portland, Oregon, on Sunday last, after spending a few weeks here with her brother, Capt. W. A. Beebe, to meet these needs is very formidable, yet very much worth while.

The Pincher Intermediate hockey team played at Coleman on Friday night last, and in spite of the fact that the Coleman team had been strengthened by a couple of members of the senior team, Pincher held them down to a draw, 3-3. The game was a good one throughout.

Attorney-General Manson, of British Columbia, makes the following remarks: "If the citizens won't obey the law, then all the governments between here and the other place won't enforce it!" It seems that attorney-generals are all of opinion that it's heaven on earth.

The Calgary Tigers were defeated at Seattle on January 16 by a score of 3 to 2. They beat Victoria 7 to 3 on the 18th and Vancouver 3 to 1 on the 21st.

Rev. E. S. Bishop is said to have resigned as commissioner under the Alberta Liquor Act, his resignation to take effect when the new liquor legislation is enacted. Rumor has it also that Mr. Bishop is to be given a new job, quite in keeping with his clerical position, one thinks.

HILLCREST HAPPENINGS

J. Baines, local union president, is in Indianapolis at present, attending the annual U.M.W. of A. convention.

C. Carlson, the company brakeman, who met with a bad accident in the course of his duties, is doing as well as can be expected.

Miss M. Foster has returned from Calgary, having been superintending certain arrangements of interest to herself and another party, resident of Calgary. Announcement in a few days.

The match at the Rex billiard parlor, between J. Eccles and J. Graham, for the Hillcrest championship of Hillcrest, takes place Saturday evening, the 26th. Two hundred points level. This match is causing quite a lot of interest.

A surprise party swooped down on Mr. and Mrs. E. Royle on the 9th instant. The party consisted of Mrs. Loathian, Leithbridge; Mrs. W. Foster and Edna, Mrs. E. Creighton, Mrs. J. Douglas, Mrs. A. Creighton, and Mrs. S. Douglas. A merry evening was spent until midnight.

At the regular meeting of Turtle Mountain Lodge No. 15, Knights of Pythias, last week, the members were honored with a visit from Bro. Wainwright, provincial grand keeper of records and seals, of Calgary, and Bro. Jack Griffiths, D.D.G.C. of Coleman.

The benefit concert given in the Union Hall for J. B. McLaughlin, of Nova Scotia, was a complete success. The following program was well rendered: March, "United Liberty," by Hillcrest Amateur Orchestra. Song by Miss Rosie Marshall. Selection by Hillcrest Orchestra. Song by Mr. S. Seaman. March—Hillcrest Mandolin Orchestra. Scotch Dances by Miss M. Douglas. March—Hillcrest Orchestra. Song—Mr. Stella. Selection by Hillcrest Orchestra. March—Hillcrest Mandolin Orchestra. Song—Mr. S. Seaman. March—Hillcrest Mandolin Orchestra. Overture, "William Tell," by Hillcrest Amateur Orchestra.

After the concert the hall was cleared for dancing, which put one in mind of the good old days that Mr. Hillcrest famous. The music for the dance was supplied by the Hillcrest Symphony Orchestra, consisting of Mrs. Jones, piano; H. Stobbs, violin; E. Royle, trombone; P. Salt, drums. Everybody enjoyed themselves to 3 o'clock in the morning.

In order to meet this demand for trained leaders, the Calgary Girls' Board has arranged for two training classes to be carried on during the winter months. One class will be for inexperienced leaders, and the other for experienced leaders. The first class, which will meet in the Y.W.C.A. under the leadership of Miss Grace Reid, Y.W.C.A. Girls' Work secretary, will be open to girls graduating from C.G.I.T. groups, young leaders, and young women who wish to enter the work—girls eighteen to twenty-five years of age. The course will include a study of the mental and moral and New Testament literature of one of many important works producing the Sunday school and mid-week sessions of the group; Bible study; story telling; recreation and program planning.

A bridge to cost in the neighborhood of twenty-five million dollars is to be built at Sydney harbor. It will be one of the largest in the world.

Most of the pictures of hockey and curling stunts to be used by The Enterprise this season will be rendered by the men and the instruments or means not perfected we will be obliged to apologize for any minor imperfections.

A Nova Scotia paper is advertising for the whereabouts of a McDonald. All the McDonalds in the country should reply to the ad and let the extra amount of revenue from postage be applied to the erection of a postoffice and customs building in Blainmore. Canada's population is about nine millions and it is thought that less than half that number are McDonalds.

COWLEY HAPPENINGS

Bert Connelly, of Lundbreck, was a week-end visitor to Cowley.

Mr. Hamill has arrived in Cowley to take the position of teller in the Union Bank.

Miss Rosamond Blackburn, of Fishburn, is the guest of M. A. Murphy and family at present.

Mrs. Connelly, accompanied by her daughter Emily, left for Spokane on Wednesday morning, on an extended visit with Mrs. Matheson and family.

On Sunday afternoon the Cowley hockey team played Lundbreck at Lundbreck. Cowley came off victorious, 6 to 3. A return game will be played here on Wednesday at 8 p.m.

The Cowley rink is in splendid shape now. It is beautifully illuminated and also has a large heated dressing room. Although it was late in starting, the people are making up for lost time.

While riding over cattle on Monday, Sid Crayford had the misfortune of being thrown from his horse and breaking his collar bone. He was brought to the doctor here for treatment.

A very pleasant evening was spent at whist on Wednesday. The prize winners were: ladies' first, Miss Nellie McWilliams (a large vase); ladies' second, Mrs. George Porter (box of fancy handkerchiefs); gentlemen's first, Thomas Sheppard (pair of spats); gentlemen's second, M. A. Murphy (pair cashmere socks). Mrs. Murphy, Mrs. Banning and Wilfred Fortier were on the committee.

Mrs. Evan Morgan was obliged to re-enter hospital the early part of the week.

William Abercrombie and Ross Snyder, of Calgary, were visitors in town on Wednesday.

Chief of Police David Ritchie, of Calgary, has been chosen as Vancouver's new chief.

Many a man today is more interested in the purchase of an auto license than a marriage license.

Rev. Dr. C. C. McLaurin is about to resign the post of superintendent of Baptist missions in Alberta.

There is as yet very little in the air in connection with the forthcoming municipal and school elections.

A meeting of coal operators and representatives of the United Mine Workers will be held in Calgary on March the 1st.

A. F. Farley, of the Farley Wholesale Co., and The Palm Cafe made assignment last week end for the benefit of creditors.

Dr. O. Lillie, who was taken to Calgary last week for special treatment, is fast improving and hopes to return to town in a few days.

An effort is being made to have Capt. Plunkett's "Cheerful" appear at the local opera house in the very near future. Many friends will remember the original "Dumbells" and would welcome the Plunketts and their troupe at any time.

Forty-three years ago five children arrived at one birth to Mr. and Mrs. Adam Murray in a little settlement called Egypt, near New Glasgow, N. S. The combined weight of the five was sixteen pounds, the shortest was 13½ inches, the tallest 10 inches. All five died within a week. The mother of the quintette was killed in the Halifax explosion.

A Nova Scotia paper is advertising for the whereabouts of

The Corporation of The Town of Blairmore BLAIRMORE, ALBERTA Auditor's Report Revenue and Expenditure Accounts for Year Ended, and Balance Sheets and Statement of Bonded Debenture Debt as at 31st December, 1923.

TO: His Worship, the Mayor, and Aldermen,
Corporation of the Town of Blairmore,
Blairmore, Alberta, Canada.

January 22nd, 1924.

Gentlemen:

I beg to report that I have examined the books and vouchers of the CORPORATION OF THE TOWN OF BLAIRMORE for the year ending December 31st, 1923.

The Balance Sheet referred to in this report are signed by me, and in my opinion, are properly drawn up so as to exhibit true and correctly the state of affairs of the Corporation, as at December 31st, 1923, as shown by the books of the said Corporation.

The Revenue and Expenditure statement shows a surplus of revenue over expenditure of \$7,385.28. A large percentage of this surplus is represented by taxes charged to Tax Sales property and as this property has been taken over by the Town, I would recommend that in future all Town property be placed in exemption so as to show a true statement of taxes collectable. I would also recommend that a special effort be put forward to dispose of lots taken over, getting best price possible and in this way get them back on the Tax Roll as revenue producing properties.

The Corporation was put to considerable expense in connection with the flood of that spring. No less than \$8,065.52 was expended on this account.

There is a decided improvement in Electric Light Department over 1922, this department showing a surplus of \$2,318.97 as against a deficit of \$108.16 in 1922.

The Waterworks Department shows a deficit of \$509.30, but when you take into consideration the heavy expense incurred on pipe line repairs, and also fixed charges of \$2,161.59 interest, and \$2,832.71 Bonded Debt Redeemed, this is a very favorable showing.

The Police Department shows a vast improvement over previous years. Revenue from this department, which includes fines, licenses, and dog and pound taxes amounting to \$4,013.25 as against \$1814.95 in 1922.

In my report last year I recommended that Electric Light Deposits be increased from \$2.00 to \$5.00 so as to protect the Corporation against losses, but this evidently has been overlooked as nothing has been done toward carrying out my suggestion.

I again draw your attention to outstanding Business Tax of \$893.64, which I understand is uncollectable and would ask that you issue instructions to the City Clerk to have this amount written off.

In my report last year I drew your attention to the lack of proper vault or safe protection for Corporation books and vouchers, but nothing seems to have been done in this connection. It would be a serious matter for the Town in case of fire if any of the records were lost as it would be impossible to again set up the accounts, and would mean a loss of thousands of dollars to the Corporation.

In conclusion I wish to thank those officials with whom the performance of my duties brought me in contact, for their assistance and courtesy on all occasions.

Respectfully submitted,

G. F. JOHNSON, Auditor.

HILLCREST SCHOOL DISTRICT ANNUAL MEETING

The annual meeting of the ratepayers of Hillcrest School District No. 1916 was held on January the 14th, Chairman Francis Lott, and all members of the board being present. Various reports were submitted. The minutes of the previous meeting were adopted as read. The attendance report showed the largest enrolment in the school's history. Report of

Secretary-Treasurer Marshall showed that several members of the board were quite regular in attendance at meetings throughout the year. The tax rate for the district for the year 1923 was thirty mills and very little of current taxes remained outstanding. The Auditor's report showed a balance to credit over 1922 of about \$13,000. The board had decided to invest most of their surplus in provincial government savings certificates, rather than entrust all funds to the

banks. The chairman during his introductory remarks, declared himself as unfavorable to the idea of a provincial bank. The handwritten report of the school inspector was so illegible that same could not be read by the secretary-treasurer. On motion by Stevenson and Stobbs, same was referred to the minister of education, with request that it be typewritten. Mr. F. Pearson was by ballot elect-

ORANGE PEKOE QUALITY

Is The West Worth While?

A booklet of fifty pages bearing the above title, written by A. S. Bennett, of Swift Current, was issued a few months ago in which this question was asked, and, from the author's standpoint, answered in vigorous and effective language. The author does not mince matters. While strictly non-partisan in a political sense, he does not hesitate to tell Governments, Federal and Provincial, some home truths; he makes no distinction between East and West in pointing out where their present attitude one to the other is wrong; while championing the cause of the Western farmer, he sharply criticizes him for his attitude and conduct in relation to the solution of Western agricultural and economic problems.

"Is the West Worth While?" is a thought-provoking little book. It hits right out from the shoulders. It is not necessary to fully agree with all the opinions expressed, nor with all the conclusions reached, in order to say that it is a booklet which can be read with profit by all, and should be studied by people both East and West. If even a small fraction of Canadians occupying places of responsibility and influence in the political, financial, industrial and agricultural branches of our national life gave as careful study to Canada's outstanding problem of today as is evidenced by Mr. Bennett's booklet, it is safe to say that some radical changes would be quickly effected in our body politic.

Is the West worth while? Unfortunately, a goodly number of much discouraged Western farmers would be inclined to answer the question in the negative. And in returning such an answer he would be joined by numerous self-controlled, small-minded Eastern business men. The trouble with both these classes is that they fail to look deep enough or far enough abroad to be in a position to give a trustworthy answer.

The West is well worth while—worth while to the men and women in the West, but just as worth while to the financial and manufacturing resources. There is nothing the matter with the country itself. It is rich in resources almost boundless in extent and beyond computation in value in dollars and cents. The people of Canada, East and West, are alone responsible for the things that are wrong with the West, and which have led people to ask if, after all, the West is worth while. And if they will only make up their minds to do so, and will get together in the right spirit in the doing of it, these wrongs can be quickly righted, and an unanimous verdict in favor of the West rendered. And a verdict for the West is a verdict for the future of the whole Dominion. Without the West the Dominion must stagnate and die.

The first lesson which people must learn, and this is equally true both East and West, is that they must rely less on legislation and Governmental help and more on their own individual efforts and through co-operation as individuals one with another. Our chief domestic ills are not political but economic. True, our economic situation is vitally and adversely affected and prevented by the international situation, and the settlement of these difficulties are beyond our own control and must be left to statesmen, diplomats, and international economists and experts. But domestic economies are our own concern. The trouble is that instead of grappling with them, we have appealed to Governments and Parliaments to do for us what in so many respects we ought to do for ourselves.

The Eastern manufacturer has for so long relied on the Government to protect his business and guarantee his profits by legislative enactments that he has failed to develop the proper self-reliance and business initiative which alone will bring stability and permanent rather than mushroom growth. As a result the average manufacturer is now fearful of even the slightest change in existing policies and laws. He relies on them more than he does on his own initiative. Taking a leaf out of the Eastern manufacturer's book, and acting on the principle that what is sauce for the goose is likewise sauce for the gander, the Western farmer has in recent years relied to an alarming extent and to his own undoing on Governmental assistance of one kind or another.

Politicians, of course, are to blame that they allowed themselves to be so influenced as to prostitute the permanent good of all and the future of Canada to their sectional considerations. The final result has been disastrous Governmental and legislative interference with sound economic laws until today the economic condition of Canada gives ground for serious disquietude, and demands a return to old and tried methods whereby through hard work and initiative by the individual, coupled with an ever increasing measure of care and legitimate co-operation, success will be attained and permanent progress made, and which can never be accomplished by leaning on Governments to do what the people must do for themselves.

Will Curtail Credits

Long Term Credits Will Be Frowned On By Wholesale Grocers

The discontinuance of long term credits has been decided by the wholesale grocers of Manitoba and Saskatchewan, states a report from Winnipeg. They have issued advice to the retail trade that terms will be strictly net 30 days or 10 percent for 15-day payment. The change is retroactive to January 1. Wholesale grocers point out that this action was made necessary as their own credits have been materially reduced by banking institutions.

Uncle Mose, a plantation negro, was being asked about his religious affections.

"Ise a preacher, sah," he said.

"Do you mean," asked the astonished questioner, "that you preach the Gospel?"

Mose felt himself getting into deep water.

"No, sah," he said. "A touches that subject very light."

Peasantry indicates intellectual stagnation.

Ice cream was introduced into France about 1850.

CHILDREN CRY FOR "CASTORIA"

A Harmless Substitute for Castor Oil, Paregoric, Drops and Soothing Syrups—No Narcotics!

Mother! Fletcher's Castoria has been in use for over 30 years to relieve babies and children of Constipation, Flatulency, Wind Colic and Worms; also relieving Feverishness arising therefrom, and by regulating the Stomach and Bowels, aids the assimilation of Food, giving natural sleep without opium. Discovered At Last

Invents Device to Protect Motorists at Danger Spots

Invention of a device to protect motorists at curves, bridges, and embankments was announced in Chicago by W. T. Kyle, general manager of the Page Steel and Wire Co., Bridgeport, Conn. The apparatus has been successfully tested, Kyle said, and is known as a highway guard.

It is composed of the strongest fabricating wire, with elasticity and recoil. It stops a machine travelling at average speed, Kyle said, and wraps itself around one speeding.

Miller's Worm Powders attack worms in the stomach and intestines at once, and no worm can come in contact with them and live. They also correct the unhealthy conditions in the digestive organs that invite and encourage worms, setting up reactions that are most beneficial to the growth of the child. They have attested their power in hundreds of cases and at all times are thoroughly trustworthy.

From 1909 to 1918 the number of automobiles in use in the United States increased 1,700 per cent.

The monkey house at the Cincinnati Zoo has a hospital annex.

Chas. H. Fletcher

Many Drug Addicts

Claimed There Are From Ten to Fifteen Thousand Drug Users, and Traffickers in Canada

Canada has from ten to fifteen thousand drug addicts and the traffickers who are carrying on and encouraging the business are more evil in their effects than the worst of the bootleggers. That was the statement of Dr. J. A. Amyot, deputy minister of health for the Dominion, in the course of an address at Toronto. The popular impression with regard to the drug habit was that it was the outcome of prohibition, but that he declared was not the case, as most of the addicts range from 21 to 20 years of age. There were no old addicts such as confirmed drinkers, who were cut off by prohibition for all the old addicts were dead. The drugs had done their work.

Touching upon the problem of venereal disease, Dr. Amyot said the matter was being grappled with in Canada more successfully than any other country he knew of. The result of co-operation on the part of the provinces.

Constipation

Because they contain mercury and mineral salts, many pills are harsh. The easiest and safest laxative is Dr. Hamilton's Pills of Maltose and Butternut. They clean the stomach, intestines and bowels—drive out waste matter, tone the kidneys, and forever cure constipation.

Dr. Hamilton's Pills

Instant Relief

As a general tonic and system cleanser nothing is so mild and efficient as Dr. Hamilton's Pills of Maltose and Butternut. At all drug stores, 25c per box, five for \$1.00, or The Catarthorone Co., Montreal.

Marks and Remarks

Chauncey M. Depew said at a banquet in New York: "The German argument against paying reparations is as confused as the metaphors of the prohibition orator who yelled:

"Let us up and buckle down to it, and, taking our shoulders, let us shoulder, with our soaring flight onward and upward till the good ship Temperance sails gaily over the land, while we sound the trumpet of Prohibition with such a loud clear blast that even the blind may see!"

At 80 Years of Age

Was Troubled With Shortness Of Breath—Palpitation Of The Heart And Fainting Spells

Mrs. M. O'Connor, Whitestone, Ont., writes: "I have been troubled, most of my life, with shortness of breath, palpitation of the heart and fainting spells. I was advised by a friend to try Milburn's Heart and Nerve Pills, which I did, and at once found relief, and I have never had a really bad spell since."

I am 80 years of age and always keep them in the house, and when I feel any symptoms of my old trouble coming on all I have to do is to take a few doses. With the help of your Pills I expect to see many more years yet. I always recommend them to any one who is suffering from heart trouble. Milburn's Heart and Nerve Pills are 50c a box at all dealers, or mailed direct on receipt of price, by The T. Milburn Co., Limited, Toronto, Ont.

The Small Depositor

The small depositor is in reality a ward of the State. He places his money in the hands of an institution chartered by public authority and subject to frequent and presumably exhaustive examinations. He is entitled to feel that when he has made a deposit it is safeguarded by competence and conscience in the bank itself and by adequate public oversight and control.—Providence Journal.

Send Board Chairman

M. P. Tullis, field crops commissioner for Saskatchewan, was elected chairman of the provincial seed board at a meeting of the board held in Saskatoon. It came into being as the result of the recent passing of the new seed act.

For Deeds Of Valor

German Soldiers Smile In Applying for Service Pay

Holders of German medals of valor are entitled to draw 25 marks in legal money monthly from a grateful country's treasury. In pre-war days this was more than \$6. Today it is one-fortieth of that of a German veteran. But some of the medals were won with a grim sense of humor still apply for the payment.

One hero remarked: "It takes some courage for officials to look into the face of a man who risked his life for his fatherland and pay him one fortieth of a penny for it."

Ask for Minard's and take no other.

Straight Talk On Danger Of Colds

Let your cold gain headway, and you may keep it from running into Catarrh.

Catarrh never stays in the same place. It travels down into the lungs—then it's Consumption. Drive colds and Catarrh right out of your system while you have the chance.

Easily done by inhaling CATARRHOZONE, which instantly reaches the true source of the trouble and gets right where the living germ of Catarrh is working.

CATARRHOZONE is full of healing balsams and essences, and is able to patch up the sore spots and remove that tender, sensitive feeling from the nose and throat.

Hawking and spitting cease, because the discharge is stopped. The nose-itch is cleared. Catarrh's relief is breath is purified. Every trace of Catarrh, bronchial and throat weakness is completely destroyed.

Get CATARRHOZONE today: month's treatment \$1.00; small size 50c. Sold by all druggists, or write to The Catarthorone Co., Montreal.

Illiteracy in French Army

Faith in Education System of France Receives A Rude Shock

France has been credited with the possession of an excellent system of education, but faith in it received a rude shock recently when the literacy statistics of 100 infantry regiments recruited in 1923 were given out.

One-third of the young men, gathered largely from the farming districts of the republic, could neither read nor write. Many of the total of 700 did not know a treaty of peace had been signed after the war, and few could tell who made the laws for their country.

250 a Day Across Border.

Detroit claims to be experiencing the biggest influx of Canadians in its history. It is said that 250 new arrivals are examined by the immigration officers daily, and this does not include those who are being "smuggled" across the border.

Killed By Blood Poison

Used an old razor for paring his nose. Foolish, because 25c buys a new one. Foolish, because 25c buys a new one. Foolish, because 25c buys a new one.

The Why Of It

Four Reasons Are Submitted for the Winter Season

Truth about winter is not at last. Persons who shiver the season need no longer shiver and repeat the futile "why?" It was answered recently by Charles O. Beaman, head of the high school science department, State Normal School, Brockton, N.Y., who spoke before the Nature Study Society of the American Association for the Advancement of Science. There are four reasons for winter. Prof. Beaman said so. They are: The sun beats the earth about six hours a day less in winter than in summer. It spreads less heat each day over a larger surface. The rays have come a longer distance through the atmosphere. Much of the sun's heat is used in winter to melt the ice and snow and to warm the atmosphere. Prof. Beaman said the sun comes north in winter and goes south in the summer. It begins its northern journey December 21, and starts its return trip June 21—Vancouver Province.

ASPIRIN

Beware of Imitations!

Unless you see the "Bayer Cross" on package or on tablets you are not getting the genuine Bayer medicine. Sold by millions and prescribed by doctors over twenty-three years for Colds, Headache, Toothache, Neuritis, Rheumatism, Neuralgia, Pain, Pain.

Only Each unbroken package contains proven directions. Handy boxes of twelve tablets cost few cents. Druggists also sell bottles of 24 and 100. Aspirin is the trade mark (registered) of the Bayer Manufacturing Co., Monroeville, Pa. Aspirin is the Bayer Cross. While it is well known that Aspirin means Bayer Manufacturing, to assist the public against imitations, the Tablets of Bayer Company will be stamped with their general trade mark, the "Bayer Cross."

No Absolute Zero

A Definite Limit to the Lowest Conceivable Temperature

Science assures us that there is a definite limit to the lowest conceivable temperature, and that this may be placed with conceivable accuracy at 459 degrees below zero on the Fahrenheit scale.

It is held that at all temperatures above this "absolute zero," particles of matter, either solid or gaseous, are in a state of vibration, the more rapid vibrations corresponding to the greater degrees of heat. All such vibrations would cease entirely at absolute zero and all gases would liquefy and even solidify before reaching this absolute zero point.

Many experiments, extending over a long period of years, were necessary to attain this knowledge. Liquid air, with its 312 degrees below zero, was a great advance on previous records; although still over 100 degrees above this absolute zero. Liquid hydrogen, with its 423 degrees below zero, was a still greater advance, and when this was frozen into solid hydrogen "ice" at 423 degrees below, or 27 degrees absolute, it seemed as if science had gone as far as it could in the direction. But not so long ago the rare gas helium was liquefied at minus 451 degrees. When this was boiled under reduced pressure a temperature of minus 454 was reached, or only five degrees above absolute zero. Slightly lower temperatures could undoubtedly be reached, but it is said that, even with the most refined methods, there is little likelihood of our ever attaining absolute zero.

The Family Physician.—The good doctor is always worth his fee. But it is not always possible to get a doctor just when you want him. In such cases, common sense suggests the use of reliable home remedies, such as Dr. Thomas' Electric Oil, which is wonderfully effective in easing inflammatory pains and healing cuts, scratches, bruises and sprains. The presence of this remedy in the family medicine chest saves many a fee.

Building Character

There is no possibility of building a strong, poised character by being negative one day and positive the next.

This is the great trouble with most people: Every twenty-four hours they tear down by their negative thoughts, their doubts, their fears, their destructive "I am," their failure and poverty and misfortune affirmations and predictions, almost all that they have built in their harmonious, creative moments.

WINTER HARD ON BABY

The winter season is a hard one on the baby. He is more or less confined to study, badly ventilated rooms.

Thus the great trouble with most people: Every twenty-four hours they tear down by their negative thoughts, their doubts, their fears, their destructive "I am," their failure and poverty and misfortune affirmations and predictions, almost all that they have built in their harmonious, creative moments.

Moved Coal In Summer

C.P.R. Hauled 3,500,000 Tons of Coal in West Coast Last Period

In 1922 the Canadian Pacific Railway Company moved more than 3,500,000 tons of coal in the west, according to a statement recently issued.

Officials of the departments concerned state that a new policy was experimented with this season, which included the moving of coal east from Alberta during the summer months when freight traffic was less heavy than in autumn. The coal was brought to its destination and stored in piles until the crop commenced to move, then was drawn upon by the railway company and for commercial purposes.

Returns From Graded Hogs

An agricultural representative in close touch with the hog raising situation in Bruce County, Ontario, reports that by shipping a carload of hogs on a graded basis the farmers who contributed the stock gained approximately 150 per cent over the flat rate of shipping which up to that time had been the rule. The load in question graded 75 per cent. select and the balance thick smooths.

A Bohemian scientist has discovered a serum for the treatment of hardening of the arteries, but nobody has found a cure for the hardening of the heart.—Harrisburg Telegraph.

The Better Way

Burroughs.—I asked you for the loan of \$10. This is only five.

Lenders.—I know it is, but that's the fairest way—you lose five and I lose five.—Denver Post.

Prince to Visit South Africa

Will Visit All Important Towns and Cities in British Possessions

The Prince of Wales will leave Southampton, May 2, for his South African tour, travelling on a passenger liner directed to Cape Town. There he will be welcomed by the Earl of Athlone, Governor-General of South Africa, and Premier Smuts.

The Prince, whose tour will occupy three months, will visit all the important cities and towns in Cape Colony; the Orange River Colony, Transvaal, Natal and South Rhodesia. Official functions will be interspersed with sports, big game hunting, visits to diamond mines and social engagements.

No child should be allowed to suffer an hour from worms when prompt relief can be got in a simple but strong remedy—Mother Graves' Worm Expeller.

Quebec Has Attractions

United States tourists automobiles to the number of 132,905 visited Quebec during the past year. Cars from 45 states in the Union and every province in Canada except Prince Edward Island, were registered here.

SERIOUS PROBLEM FACES NEW PARTY IN GREAT BRITAIN

London.—Sir Eric Geddes, addressing the annual meeting of the Federation of British Industries in London, expressed the hope that the Labor Government, if one should be formed, would seek the advice of the federation, as its predecessors have done, but to an even greater degree, because the Labor party anyhow could not claim at present to have within their ranks the experience which the older parties had of superior direction of great industrial undertakings of the experience of governing.

A serious problem, said Sir Eric, would face any government which did anything to throw more men out of employment by upsetting the confidence whereon British trade flourishes.

World trade and the prosperity of Great Britain were beheld on a knife edge, and very little might turn the balance.

Sir Eric continued that there was a distinct tendency towards trade improvement.

"With this delicate situation very little might turn the scale. A hasty or ill-considered administrative act, or proposals for legislation, even if irresponsible or not fully responsible, might shake confidence."

"There is no doubt that the advent of a new party, of which certain extreme members would be the nucleus, has caused uneasiness. There has been no panic, and the sky is not black with pound notes winging their way across the Atlantic, but there is no doubt that a lot of investment is being done abroad. If this state of investment due to the political situation be deemed too great, the people will invest elsewhere. Industry will suffer, employment will suffer and the purchasing power of the home market will decrease. I would say to whatever government is in power that the present position is one of extreme delicacy. This is not a time for personal feeling or party faith. It is a time for careful, cautious statesmanship, for weighing every act and word, for great courage and patience."

Ask For Moratorium

Farmers Union Want Measure of Relief for Agriculturists

Saskatoon.—A moratorium for Saskatchewan, Manitoba and Alberta, to be declared at once by the three legislatures concerned, is requested in a resolution passed unanimously by the convention of the Farmers' Union of Canada.

Before introduction of the resolution, delegates from all three provinces reported distressing conditions among the farmers, due to burdensome mortgages and taxes.

The resolution reads: "Whereas in the history of Canada the farmers of the west have never been so embarrassed financially, therefore, be it resolved that this convention ask the three prairie provincial governments to immediately declare moratorium until economic conditions are relieved."

Fight Manitoba Income Tax

Winnipeg.—There will be a fight in the Legislature over the provincial income tax act, passed last year, it became evident when J. Kensington Downes, independent, introduced a bill for the repeal of the measure. Mr. Downes has been assured of the support of a good many members. It is understood, while the government has announced its intention of collecting the tax and has practically completed arrangements for so doing.

Would Teach Farm Costs

London, Ont.—Selling that there must be more accuracy and less guess work regarding costs of production on Ontario farms, the Hon. John S. Martin, Ontario minister of agriculture, told the members of the Western Ontario Dairyman's Association that a start along this line should be made in the rural public schools of the province.

B.C. Fire Losses

Vancouver, B.C.—Fire losses in British Columbia during 1923 totalled \$2,119,735, while insurance totalled \$2,682,908. It was announced by J. P. Daugherty, provincial superintendent of forests.

ACHE NO MORE!

Minard's stops pain, relieves inflammation, eases rheumatism, neuralgia and all pains.

No Cruelty In This Method of Poultrymen

Ottawa.—Local poultry lovers and officials of the Humane Society are discussing the recent decision of the Illinois Humane Society that it is equally to have electric lights burning in henhouses thereby forcing hens to lay under artificial lighting conditions. "I don't see any signs of cruelty in it," asserted Dr. Grisdale. "We have been doing it for years at the experimental farm."

Not Asked to Join Government

Premier Dunning of Saskatchewan

Puts An End to Rumors

Regina.—All rumors that Premier Charles A. Dunning, of Saskatchewan, was called to Ottawa with the object of inducing him to become a member of Premier Mackenzie King's cabinet were exploded by Mr. Dunning upon his return from the capital city.

"I did not go to Ottawa with any intention of entering the federal political field and Mr. King did not ask me to join his government," said Mr. Dunning in an interview with The Morning Leader.

The Saskatchewan Premier continuing said:

"Mr. King desired to discuss with me a number of questions most of them matters of policy of great importance to the people of Saskatchewan."

"When requested to go to Ottawa for this purpose I was glad to do so especially as the circumstances also gave me an opportunity to urge more strongly the view I have frequently expressed publicly, that the best interests of Canada and especially of the west demand closer co-operation between Liberals and Progressives."

Says Entente Is Useless

Professor Wrong, of Toronto University, Declares It Is Not in Empire's Interest

Toronto.—The so-called Great Britain's entente with France comes to an end, the better it will be in the interests of the British Empire, declared Prof. George M. Wrong, of Toronto University, speaking here from his personal observations in Europe during the summer. He declared that the statement came after careful consideration and with no thought of hostility toward France. It was vain, he continued, for two people to go on saying that they agree when they know they do not agree. "Great Britain must stand by herself as she has done in the past," he said.

To Have Legal Status

Pope Pius Ready To Conclude Agreement With France

Rome.—The Giornale d'Italia announces that Pope Pius is ready to conclude an agreement with France in the matter of accepting the proposed diocesan associations as proposed by France, and which will give legal status to the Roman Catholic Church in France, for the first time since the passage of the Law of Associations Bill. The negotiations have been going on between the Holy See and the French Government for several years, the newspaper says, but the Pontiffs prior to Pius have been unable to agree on the recognition of the associations.

Should Get Settlers

Regina.—With greater co-operation and co-ordination of effort between the government and the railways, coupled with conditions on the other side of the Atlantic, Canada should get a large influx of settlers from Great Britain and other European countries during the coming season, in the opinion of D. C. Coleman, of Winnipeg, vice-president and general manager of C.P.R. western lines, interviewed here.

Fund For Mental Hygiene

Montreal.—The Lady Byng of Vimy fund for mental hygiene was launched at a public meeting here on Monday, Charles P. Martin, president of the Canadian National Committee for Mental Hygiene, announced that the fund would be utilized by the National Committee for the prevention of insanity, the control of feeble-mindedness and the treatment of nervous disorders. Special attention will be given to research.

Scarlet Fever Serum

New York.—Discovery of a serum for scarlet fever was announced by Dr. A. R. Doche, of Columbia University. He stated there were no grounds yet for saying that the serum is a definite curative agent. He added, however, that in a limited number of cases, dealt with, "certain promises" have been shown.

EXPERT SPEAKS ON PROBLEMS OF THE FARMER

Saskatoon.—In advising farmers how to deal with the present situation affecting the production of grain and livestock in Western Canada, Hugh J. Hughes, of the market branch, department of agriculture for Minnesota, at the sessions of the Saskatchewan Agricultural Society convention said:

"Live as well as possible, develop the home market, put your acres to work, produce what the world wants, foster co-operative marketing and spend freely."

He declared at the outset of his address, that the feeling that farm conditions are uniformly unfavorable, is far from correct. Mr. Hughes is director of marketing of the department of agriculture, Minnesota, and is a recognized authority in his chosen branch of work. He made his address the occasion for stock taking of farming conditions in the Canadian western provinces.

"The cotton growers of the United States, of India, of Egypt and Brazil," said the speaker, "are now enjoying a marked wave of prosperity. The growers of tobacco are not looking about for economic relief. The wool producer the world over is sharing the prosperity that is common to those products in which the consumptive demand outruns the supply. Dairy products, including butter, cheese and eggs likewise are sharing in this general tide of prosperity. Insofar as wool production and trade are concerned our attention to the problems of livestock and grain production make us feel acutely a situation that is more or less local, and I will confine myself to the survey of conditions that affect directly the great agricultural industries of your western provinces, the production of grain and livestock."

For the remainder of his address Mr. Hughes confined himself to three phases of the question: "first, the unfavorable factors that affect our grain and livestock farming; second, the factors that are in our favor; and third, how to adapt ourselves to the situation."

Dealing with the advantages enjoyed by the Western Canadian grain farmer, Mr. Hughes stated that one of the most outstanding was the soil and climate permitting the production of grain carrying the highest protein content. "The Canadian farmer," he added, "can produce more food per man than any other farmer on the globe. He is something like six to eight times as efficient as the best farmer in continental Europe. It is this man and farm efficiency that enables him to place his product on the world's markets with the competition of the peasant labor of Siberia, the painstaking, efficient labor of Central Europe and the cheap lands and extensive farming operations of Australia and the Argentine."

Want Modification of Tax

Toronto.—The Ontario Association of Memorial Craftsmen in annual session here, decided to send a delegation to Ottawa to interview the Federal Government and press for a modification of the present sales tax.

President of Fruit Jobbers

Winnipeg.—C. W. McKelvie, of Edmonton, was elected president of the Western Canada Fruit Jobbers' association at the closing session of the organization's convention here.

WESTERN EDITORS

Hon. S. J. Latta, Minister of Education in the Saskatchewan Government, and Minister in Charge of the Bureau of Publications and the office of the King's Printer. Mr. Latta is the Editor and Publisher of The Prairie News, Govan, Sask. and is also Editor of The Western Woman and Rural Home, Published at Govan.

Will Curtail Expenditures

Report that Federal Government Will Cut the Cost According to the Cloth

Ottawa.—Financial and banking questions promise to be foremost in the parliamentary session which is to begin on the 28th of February. In estimates now being prepared, an attempt is made, will be made to cut the cost according to the cloth, and balance expenditures and revenues. If this can be accomplished, a very sparse programme of public works will be proposed.

It is stated here, that something will have to be done about taxation. From many quarters whose opinions are respected come complaints about taxation being a burden upon industry and commercial enterprises, and some effort to lessen it will be made. "The sales tax is certain to be modified some way, but whether the income tax will be changed is more doubtful. If anything at all is done in the direction of lessening taxation, a number of the outlays being advocated are likely to go by the board. In regard to banking, and in the light of the experience in the case of the Home Bank it is believed that a measure of government inspection of head offices will be introduced. The disposition here is adverse to parliamentary inquiry into the Home Bank case, the argument being that court proceedings will be a thorough probe."

Home Bank Depositors

Ottawa.—That the depositors of the defunct Home Bank would receive from 37 to 40 per cent. of their deposits was the opinion expressed by I. E. Weldon, associate liquidator of the Home Bank, at a well attended meeting of Ottawa depositors of the Home Bank here.

British Woman Killed in Mexico

Mexico City.—The first foreign casualty in the present Mexican insurrection is reported by the British legation in the accidental death of Mrs. Margaret Clara Brown-Cave, 30, who was killed by a stray bullet during the fighting at Pachuca. She was the wife of a British mining engineer.

Show Wonders Of Rapid Photography

London.—Photographs at the rate of 200,000 a minute, 91 times as fast as those reeled off by the slow motion picture camera—are being made as illustrations under the British Government auspices. The camera used in these lightning snapshots weighs two tons, and is being used by ordinance experts to examine the behavior of shells and armor plate. It has shown clearly what happens to a golf ball when struck by a club head. The ball is pressed flat on one side during the 1,200 part of a second that the driver is in contact with its hard surface.

Saved Berlin From Capture

American Officer Declares: Foch Was Against Invasion of German Capital

New York.—Marshal Foch personally saved Berlin from an invasion by allied troops after the victorious drives, just before the Armistice in 1918, it was revealed by Major-General Henry T. Allen, former commander of the United States Army of Occupation. Foch's reason for not taking Berlin, General Allen said, was that it would have been a gigantic task to hold the vast territory, which included Hanover and other large cities.

Before deciding the question, General Allen said, the French marshal conferred with Field-Marshal Haig, Marshal Petain, and General Pershing.

Upward Trend of Prices

Slight Increase in the Cost of Living Is Shown

Ottawa.—Figures compiled by the Federal Labor Department show that the average cost of a weekly family budget of twenty-nine staple foods was \$10.73, at the beginning of December, as compared with \$10.69 for November; \$10.39 for December, 1922; \$11.00 for December, 1921; \$11.62 for June, 1920, the peak; and \$7.96 for December, 1914.

In wholesale prices the index number, calculated by the Dominion Bureau of Statistics, based upon prices in 1913 as 100, stood at 153.5 for December, as compared with 153.3 for November; 150.9 for December, 1922; 154.3 for December, 1921; and 256.9 for May, 1920, the peak.

Safety On English Railways

Remarkable Record Is Attained In Protecting Lives of Passengers

London.—There was only one railway accident in England involving loss of life during 1923, according to the Railway Gazette. This was at Diggle in July when two passengers were killed.

Since the beginning of the present century there have been two years, 1901 and 1908—without a single fatality to passengers.

In only three years have more than five people been killed and in 23 years the number of deaths totals only 73.

Need Water Supply

Moose Jaw.—Warning to Moose Jaw and Regina that future development of the two cities was vitally dependent upon speedy acquisition of adequate water supply was given by D. C. Coleman, vice-president and general manager of western lines, C.P.R., at the annual meeting of Moose Jaw Board of Trade.

RUFUSES TO BRING GOVERNOR INTO THE DISCUSSION

Winnipeg.—Declaring that the principle applied that "the King can do no wrong," and that it would not be a matter of good policy to bring the representative of the King into a public controversy, Premier Bracken refused, in the Legislature, to take correspondence between the government and the Lieutenant-Governor, Sir James Aikins.

The correspondence was asked for by J. T. Haig, Conservative, and related to the transfer of the comptroller-general's department to the treasury and proposed investments by the provincial savings office, among other matters.

Premier Bracken took the floor in the debate on the reply to the throne speech, and gave the House a lively time, with detailed replies to criticism which had been hurled at the government by Hon. T. C. Norris, leader of the opposition, and Major A. G. Taylor, leader of the Conservative group. He closed his speech with a plea that all members should work for the welfare, not of party or constituents, but of the province and the people as a whole.

Not Holding Up Treaty

Canada Notifies British Government on Attitude in Connection With U.S. Liquor Agreement

Ottawa.—Canada is not one of the "domestic" nations when they are holding up the British-American liquor treaty through failure to notify the British Government of their attitude in connection with it, Premier King declares.

"We had the draft of the treaty under consideration some time ago," said the premier, "and we notified the British Government of our attitude."

Premier King did not indicate whether Canada had given unqualified approval of the agreement or not.

Still Going Strong

Kingston, Ont.—Two octogenarians provided much fun when they donned skates, performed stunts and staged a race on the Bay of Quinte at Deseronto recently. They were Wesley Post, 84, and Eli McCabe, 83. The latter, who won the race, wore a pair of skates made 60 years ago by the village blacksmith.

May Lay C.B. Railway

Halifax.—Arrangement may be completed whereby the Canadian National Railway will take over the Inverness Railway in Cape Breton and assume control under a lease over a number of years upon a rental basis, with an option of purchasing by the Federal Government at the end of that time.

Record Helicopter Flight

Paris.—Marquis Raoul Paterna Pescara, the Argentine aviator, established a world record flight for helicopters. He remained in the air eight minutes thirteen seconds, and flew a distance of 1,160 metres (1,267 yards).

SEES DISASTER IN ENTRY OF A LABOR PARTY

Montreal.—While it seems incredible that a Socialistic Labor Government must come into power in Great Britain, Sir Robert Horn, former British chamberlain of the exchequer, in an address to the Canadian Club here, urged that even if such a government must come, the two other great parties should promptly sink their differences and, as patriots, rather than politicians, should join issue to displace such a government before it could do injury to the country. He predicted that a Liberal Government would then come in, led by Asquith and Lloyd George, while the Conservatives would lend sufficient support to ensure a sane and stable government that would preserve British credit at home and abroad.

Sir Robert was especially severe in his arraignment of the idea of a capital levy, as a plan that would destroy both British business and credit.

"For my part I see nothing but disaster from the entry of the Labor Socialists into office," he said, "and conditions will be worse than they are today." He added that this was the reason why he was at odds with those who say it does not matter, and would let Labor form a government for a while. "These Socialists," he said, "have no right to form a government, since they do not represent a third of the people," and he challenged their claim to share the right to form a government as a monstrous thing.

One of the world's remarkable men was a shoemaker who breathed his last.

The regular meeting of the town council will take place on Monday night next.

Don't divorce your wife. Take her a dozen roses. The shock will kill her and you can then use the roses for the funeral.

Every wife knows that man is superior to other animals. The lion grows wild feeding; and that's when a man stops.

Capt. Beebe states that unless applications for marriage licenses come in more regularly and often he will have to go out of business in that line.

A meeting of members of Blairmore Local, G.W.V.A., is called for Sunday next, at 11 a.m. We understand that at this meeting the re-organization of the local and election of officers will take place.

Rumor has it that R. B. Bennett, of Calgary, has become interested in the Wigwam Pulp & Paper Co., with big timber holdings south of Elk. It is said that Mr. Bennett has purchased the Ross interest in the company. If this is true we may look forward to something doing in the spring as R. B. Bennett represents big Canadian capital.—Ex.

LETHBRIDGE

LETHCO COAL

Stove Nut, one of the best in Lethbridge field, at \$3.25 per ton delivered anywhere from McLaren's Mill to Frank. Leave your order at the Battery Shop or Phone 298. —W. M. BUSH.

Mrs. D. A. Howe is recovering from a siege of serious illness.

Mayor McLeod joined a deputation of Pass citizens on Sunday night for Lethbridge, where they waited upon Superintendent Jamieson, of the C.P.R., with a view to averting the closing up of the main traffic way around the bluff in Coleman.

Local shareholders of the defunct Home Bank of Canada received New Year greetings on Friday last in the shape of summonses in connection with action for recovery of the double liability claim. Blairmore has about five shareholders, including H. H. Griesbach and Joseph Little.

There is a movement on foot in Saskatchewan in favor of a buffalo park in that province similar to the national park now maintained at Wainwright, Alberta, on the transcontinental line of the Canadian National Railways. The associated boards of trade of the province are dealing with the matter.

Three million dollars of Newfoundland government 20-year coupon bonds have been sold to a Canadian-American syndicate at 97%, bearing interest at 5% per cent. The proceeds are mainly for the financing of the railroad purchase put through last summer when the government took over the Reid interests in the railway and steamship services of Newfoundland.

An effort is being made to have an outside referee handle Friday night's game here.

E. P. Rahal is in town and is looking for premises in which to open up in business.

During the past week three local teams have defeated three Bellevue teams twice over in hockey.

Stool pigeons in Kansas police circles have no plumage. They are known as "under cover" men.

Harry Hales, who has been seriously ill with an attack of pneumonia, is, we are pleased to report, on the road to recovery.

Rumor has it that Larry O'Grady has joined the army of fenefidets. He will likely be back in the game with Bellevue on Saturday night.

Bellevue plays a senior league fixture at Lethbridge on Saturday night, the game having been switched from Thursday night.

The Bellevue Intermediates were defeated by Blairmore on the local arena last night. The score was seven to three. M. Pruden refereed.

The Blairmore firebroses were guests of Fred Gavelin at luncheon at the Plaza on Saturday night last. Mr. Gavelin has recently passed examination as a fireboss.

The Lethbridge Herald has already adjudged Blairmore the winners of the second section of the Crow League, and entitled to play off with Bellevue.

AN OPPORTUNITY!

Once in twenty-five years investors of \$50 is received with same appreciation as investors of \$5000. Proven product, limited time only. Call Room 15, Greenhill Hotel, from 7 to 9 evenings, or Phone 176 for appointment.

Capt. "Bob" Bartlett will take charge of an airship trip over the north pole and will sail in the Shenandoah, the big U.S. dirigible, which recently went adrift from Lakehurst, New Jersey, but was recaptured before much damage was done.

The result of test shipments of Alberta cattle made to California have justified the belief that cattle can be shipped from Alberta of such quality and at such a price as to compete with the best American cattle in that market.

E. M. Brown, formerly of Blairmore, has returned to London, England, after several years of service with the British Aviation Corps in Russia and other parts of Europe. Brown has been granted a life pension, and expects to visit his old home in Newfoundland before returning to Western Canada.

No, sir! It ain't a grand and glorious feeling when you pay a visit to the Blairmore government house and are kindly shown all points of interest in the spacious edifice, and are taken to the basement where your attention is drawn to a pile of sealed bottles just squeezed from an unfortunate bootlegger; that morning, and the officer allows you to look, and look, and sigh, without ever suggesting that your inner heart longs for a "drap o' the crater," you are asked to come outside to see the garage. No, sir, it ain't!

WHY YOUR TROUSERS

should be made by us to measure. Ill-fitting trousers spoil the entire effect of a suit no matter whether the coat and vest fit all right. Besides, there's your comfort to consider. Waist too tight or too loose, seat the same, pinching crotch, ungraceful legs, awkward draping give you a sorry appearance. Try us on your next trousers and see the vast difference tailoring makes.

INTERCLUB CURLING GAME

IN MEMORIAM

The annual interclub curling game between the Coleman and Blairmore Curling Clubs took place on Saturday, the 19th inst. Six rinks a side were played, three games being played at Coleman and three at Blairmore. The result was a win for Blairmore by 22 points.

At Coleman:
Blairmore
MacKenzie 16
McLeod 10
Clark 13
At Blairmore:
Wilson 15
Morgan 11
McKay 6

Coleman
Oulmette 8
Scott 5
Bolton 9

Total: Blairmore 71; Coleman 49.
In connection with the above it is a pleasure to note that there were no protests, no games ordered to be re-

HALLWORTH—In loving memory of Kate Ellen, wife of Albert Hallworth, who died January 24th, 1922. Short and sudden was the fall. To one so dearly loved by all; The blow was great, the shock severe.

We little thought her death was near.
Two years have gone, our hearts still sore,
As time goes on we miss her more.
—Inserted by Husband and Family.

played and no questions were referred to the league. Ha, ha!

A friend of Connolly's enquired of him at Bellevue if he had yet discovered any of those air pockets aviators tell us about.
